WASSIM HUSSEIN

Frontend Web Developer with 4 Years of Experience

Beirut, Lebanon | +961 71 360224 | wassim.hussein360@gmail.com | Lebanese | LinkedIn Profile

TECHNICAL SKILLS

- **Frontend:** Angular, React, Next.js
- **Styling:** HTML-CSS, Tailwind CSS, Bootstrap
- **Backend/Services:** Firebase (Auth, Firestore, Storage)
- **Tools:** GraphQL, Apollo Client, Git - Bitbucket, Algolia Client

PROFESSIONAL EXPERIENCE

Frontend Web Developer – Menasa | Dubai, United Arab Emirates (Remote) Feb 2024 — Apr 2026

- Rebuilt a full enterprise dashboard, improving scalability and system performance.
- Implemented authentication and role-based access control for secure user management.
- Developed modules for products, orders, suppliers, payments, and analytics.
- Integrated advanced search and filtering (Algolia), improving data retrieval efficiency.
- Built export and reporting features to support business operations.
- Optimized UI across platforms, enhancing responsiveness and user experience.

PROJECTS

Yiswa Admin Dashboard (Advanced E-commerce Platform)

- Developed a scalable admin dashboard using **Angular** and **Bootstrap**.
- Integrated **Algolia** for fast search and filtering.
- Implemented **Firebase** services (Authentication, Firestore, Storage, Hosting).
- Built analytics and data-fetching layers using **Apollo Client**.
- Designed modules for product, order, and user management.

POS System – Menasa

- Built a Point of Sale (POS) system using **React** and **Tailwind CSS**.
- Integrated Algolia for real-time product lookup.
- Implemented secure authentication and storage using **Firebase**.
- Optimized UI for fast transactions and smooth user experience.

Bundle Dashboard

- Developed a feature-rich dashboard using **Angular**.
- Integrated **Firebase services** (Auth, Firestore, Storage).
- Reused scalable architecture like Yiswa platform.
- Focused on performance and maintainable code structure.

Next.js Dashboard - Famously

- Built a modern dashboard using **Next.js** and **Tailwind CSS**.
- Implemented responsive UI and optimized rendering performance.
- Structured reusable components for scalability.

E-commerce Web Application (User Platform)

- Developed a responsive user-facing platform for product browsing and interaction.
- Improved UI/UX and fixed critical bugs across multiple modules.
- Enhanced performance and styling consistency across the application.

EDUCATION

B.S. in Computer Science – Al Maaref University, Lebanon (2024)

- **GPA: 3.58/4**

- **Graduation Project: Online Doctor Consultation Platform**
  - **Tools: Figma, React, Spring Boot, and MongoDB**
  - **Grade: 95/100**
